**Limited tuition assistance** may be available. Please call the ACC office at (626)797-6142 for more information. **Sibling discounts** are available. If more than one child from a family attends ACC (even if in different programs), one child will be charged the regular fee, a second child will receive a 10% discount, and any other children will receive 20% discounts. The child with the highest weekly cost, usually the youngest, will not get a discount; the child with the lower cost will be discounted 10%. Costs are calculated after any need-based assistance has been subtracted, and discounts are rounded to the nearest dollar.
